

**NON-SELECTIVE
HERBICIDE**

DURANGO® 450 SL

**NON-SELECTIVE HERBICIDE FOR THE CONTROL OF A BROAD
RANGE OF ANNUAL AND PERENNIAL WEEDS**

PRODUCT OVERVIEW

- Albaugh DURANGO® 450 SL Herbicide is a non-selective liquid herbicide effective in the control of many annual and perennial grasses and broadleaf weeds in crop areas, land preparations and non-crop areas.
- This product is inactivated on contact with the soil and does not provide residual weed control.
- It is absorbed by the plant foliage and green stems and moves through the plant from point of contact to root system.
- Visible effects are gradual yellowing and wilting of the plant which advances to complete browning of growth above the ground and deterioration of underground plant parts.
- Visible effects takes 3 to 7 days on annual weeds, whereas on perennial weeds it may take 2 to 3 weeks or longer depending on weather conditions following spraying.
- No withholding period is required for this product. However, to ensure herbicide absorption, grazing of treated areas should be delayed at least one day after treatment of annual weeds and 7 days for perennial weeds.

ACTIVE INGREDIENT

450 g/L Glyphosate present as the isopropylamine salt
120 g/L Polyethanoxo (15) tallow amine

H.R.A.C. GROUP

GROUP 9 HERBICIDE

FORMULATION

Soluble Concentrate

POISON SCHEDULE

Schedule 5

COMPARE TO

Various 360 g glyphosate

MODE OF ACTION

EPSP synthase inhibitor

SIGNAL HEADING

CAUTION
KEEP OUT OF REACH OF
CHILDREN
READ SAFETY DIRECTIONS
BEFORE OPENING OR USING

PACKAGING

20LTR, 110LTR, 1000LTR

APVMA APPROVAL NO.

94227/141860
