

# TOLEDO<sup>®</sup> 430 SC

THE PREMIER TRIAZOLE CHEMISTRY FOR BROAD-SPECTRUM  
DISEASE CONTROL TO HELP MAXIMIZE YIELD AND PROFIT  
POTENTIAL IN A VARIETY OF CROPS

Albaugh TOLEDO<sup>®</sup> 430 SC Fungicide is a Triazole fungicide with rapid systemic protective, curative and eradicator action that is quickly absorbed by the vegetative parts of the plant and translocated acropetally, generating excellent control of advanced stages of infection and sporulation.

## PRODUCT OVERVIEW

- Provides economical disease control on a variety of crops including bananas, grapevines, peanuts, greenbeans, lettuce, peas, wheat, oats, barley, onions, pawpaw, pyrethrum, ryegrass and fescue seed crops, and sugar cane.
- Can be used in many different applications and combinations for optimal disease management.
- Flexible use rates promote economical disease management.
- Registered rates include concentrate and dilute options giving you flexibility to protect your crop.

### ACTIVE INGREDIENT

430 g/L Tebuconazole

### F.R.A.C. GROUP

GROUP 3 FUNGICIDE

### FORMULATION

Suspension Concentrate

### POISON SCHEDULE

Schedule 5

### COMPARE TO

Folicur<sup>®</sup>

### MODE OF ACTION

DMI Inhibitor

### SIGNAL HEADING

CAUTION  
KEEP OUT OF REACH OF  
CHILDREN  
READ SAFETY DIRECTIONS  
BEFORE OPENING OR USING

### PACKAGING

20LTR

### APVMA APPROVAL NO.

69174/141540

### STATES AND TERRITORIES REGISTERED

ACT, NSW, NT, QLD, SA, TAS, VIC,  
WA
