

TANTOR™ 250 SC

A SYSTEMIC FUNGICIDE WITH PROTECTIVE, CURATIVE AND ERADICANT ACTION FOR THE CONTROL OF MANGO ANTHRACNOSE.

PRODUCT FEATURES

- **Safe to crops:** TANTOR™ 250 SC is non-phytotoxic, especially during the crop's flowering and fruiting stage allowing full fruit development.
- **Eco-friendly:** The product poses no threat to animals or the environment. It is non-toxic to beneficial insects, particularly to honeybees at label rates.
- **Triple-action fungicide:** TANTOR™ 250 SC offers systemic, preventive and curative action. Upon application, its active ingredients are absorbed and translocated to the whole plant, controlling deep-rooted causal agent of the disease.
