

ADJUVANT

DUO STICK SELECT™

DUAL-ACTION SURFACTANT ADJUVANT.

Duo Stick Select™ is a high-quality blend of organosilicone surfactants (OSS) and methylated soybean oils (MSO). Designed for use with herbicides that call for MSO and do not exclude the addition of OSS, Duo Stick Select delivers superior penetration compared to MSO alone and provides excellent coverage for spray volumes less than 15 GPA.

PRODUCT FEATURES

- Increased efficacy of most pesticide applications.
- Increased penetration of herbicides and fungicides.
- Increased nutrient availability at the roots.
- Increases the speed in which actives are available for uptake.

DIRECTIONS FOR USE

Duo Stick Select is designed for use with herbicides and may be used when the pesticide label calls for an MVO or MSO, but does not exclude the use of an organosilicone.

LABELED USES

- Herbicide tank mixtures

APPLICATION RATES

Applications	Amount per 100 gal
Turf and ornamental	16 to 48 oz
Agriculture and citrus	16 to 48 oz
Rights of way and forestry sites	16 to 32 oz
Aquatic (surface)	16 to 32 oz
Aquatic (submerged)	20 to 40 oz

See label for complete application guidelines and restrictions.
