

SELECTIVE HERBICIDE

MSM

60WDG SELECT™

**HIGHLY SELECTIVE, POSTEMERGENCE HERBICIDE
FOR CONTROL OF GRASS AND BROADLEAF WEEDS.**

MSM 60WDG Select™ is a highly selective, postemergence herbicide for control of grass and broadleaf weeds in turfgrass. The active ingredient, metsulfuron-methyl, is absorbed through plant surface and roots to deliver effective control of many broadleaf weeds, as well as annual and perennial weedy grasses such as ryegrass, bahiagrass, and foxtail.

PRODUCT FEATURES

- Excellent control of grass and broadleaf weeds in warm-season turfgrasses including bahiagrass from St. Augustine and Bermudagrass.
- Controls annual and perennial weedy grasses and broadleaf weeds, including rosette- and vining-type dicots.
- Safe alternative for use on buffalo grass.

LABELED USES

- Turfgrass
- IVMs
- Non-crop industrial sites

LABELED GRASSY WEEDS

Bahiagrass

Ryegrass

Foxtail

See label for complete application guidelines and restrictions.

ACTIVE INGREDIENT

60% metsulfuron-methyl

HRAC GROUP

2

FORMULATION

Water soluble granule

CHEMICAL FAMILY

Sulfonylurea

COMPARE TO

Manor®

MODE OF ACTION

Amino acid inhibitor

RESTRICTED USE

No

SIGNAL WORD

Caution

PACKAGING

40 x 2 oz, 8 x 8 oz, 8 x 16 oz

EPA REG NUMBER

83100-2-89442

MSM 60WDG SELECT™

HIGHLY SELECTIVE, POSTEMERGENCE HERBICIDE FOR CONTROL OF GRASS AND BROADLEAF WEEDS.

APPLICATION INFORMATION

MSM 60WDG Select™ may be used for use for general weed and brush control on non-crop, industrial sites such as airports, military installations, fence rows, roadsides and associated rights-of-way, petroleum tank farms, pipeline and utility rights-of-way, pumping stations, railroads, storage areas, and state and federal plant sites including government owned parks and recreational areas, federally controlled customs and border crossings, and non-crop lands in government set-aside programs. **MSM 60WDG Select** may also be used for the control of certain noxious and troublesome weeds on industrial unimproved and professional turf, such as lawns, parks, cemeteries, and golf courses (fairways, aprons, tees, and roughs), and for the establishment and maintenance of native grasses in non-crop, rangeland, and pasture. This product may also be used on sod farms. Consult the "Weeds Controlled" and "Brush Species Controlled" tables on the label to determine the appropriate application rate. **MSM 60WDG Select** may be applied in tank-mixture with other herbicides labeled for use on non-crop sites. Fully read and follow all directions and restrictions on each label.

Application timing

Applications may be made at any time of year, except when the soil is frozen. When a spring application is made on fescue or bluegrass, a second application may be made during the summer after full seed head maturation.

Growth suppression and seed head inhibition

(Chemical mowing)

MSM 60WDG Select may be applied for growth suppression and seed head inhibition in well-established fescue and bluegrass turf at the use rate of 1/4 to 1/2 ounce per acre.

Tank mix combination

MSM 60WDG Select may be tank mixed with Embark for improved performance in the regulation of growth and seed head suppression. Tank-mix 1/4 to 1/2 ounce of **MSM 60WDG Select** with 1/8 to 1/4 pint of Embark.

Application timing

Application may be made after at least 2 to 3 inches of new growth has emerged until the appearance of the seed stalk.

LABELED BROADLEAF WEEDS

Annual sowthistle	Common groundsel	Dogfennel	Miner's lettuce	Spurge (prostrate)
Aster	Common mullein	False chamomile	Pennsylvania smartweed	Sweet clover
Bittercross	Common purslane	Fiddleneck tarweed	Plantain	Tansy mustard
Blue Mustard	Common sunflower	Field pennycress	Prickly lettuce	Treacle mustard
Buckhorn	Common yarrow	Flixweed	Prostrate knotweed	Tumble mustard
Bur buttercup	Conical catchfly	Goldenrod	Redroot pigweed	Virginia buttonweed
Canada thistle	Cow cockle	Henbit	Redstem filaree	Wild carrot
Chicory	Crown vetch	Hoary cress (whitetop)	Shepherd's purse	
Clover (white)	Curly dock	Kochia	Smallseed flaxweed	
Common chickweed	Dandelion	Lambsquarters	Smooth pigweed
