

FUNGICIDE

TM 4.5F SELECT™

BROAD-SPECTRUM, SYSTEMIC FUNGICIDE.

TM 4.5F Select™ is a broad-spectrum, systemic fungicide for the control and prevention of diseases on ornamentals and cool- and warm-season turfgrasses. **TM 4.5F Select** is the perfect disease management tool to keep your golf course or athletic field in peak condition. For optimal effect in areas that utilize irrigation, add a spreader/sticker adjuvant to the tank mix.

PRODUCT FEATURES

- No known phytotoxicity to turfgrass.
- Both preventive and curative properties.
- Use on both cool- and warm-season turfgrasses.
- Can be used through certain irrigation systems.

LABELED USES

- Greenhouse
- Nurseries
- Golf courses
- Athletic fields
- Cemeteries
- Parks
- Commercial lawns
- Residential lawns
- Landscape ornamentals
- Conifers (not for use on conifers in California)

LABELED DISEASES

Anthracnose	Gray leaf spot	Spring dead spot
Brown patch	Necrotic ring spot	Stripe smut
Copper spot	Pink snow mold	Summer patch
Dollar spot	Red thread	Zoysia patch
<i>Fusarium</i> blight		

See label for complete application guidelines and restrictions.

ACTIVE INGREDIENT

46.2% thiophanate methyl

FRAC GROUP

1

FORMULATION

Flowable

CHEMICAL FAMILY

Thiophanates

COMPARE TO

Cleary's 3336® F

MODE OF ACTION

Systemic (mitosis and cell division)

RESTRICTED USE

No

Caution

PACKAGING

2 x 2.5 gal

EPA REG NUMBER

89442-14

TM 4.5F SELECT™

BROAD-SPECTRUM, SYSTEMIC FUNGICIDE.

APPLICATION INFORMATION

TM 4.5F Select™ provides broad-spectrum control of many foliar, stem, and below-ground diseases on a wide range of horticultural plants grown or maintained under a variety of conditions. Apply **TM 4.5F Select** 14 to 21 days prior to when a particular disease usually appears and at the very latest, upon first sign of disease. Use 7- to 14-day spray intervals with 14 days being for preventive treatments and the 7-day interval for times when conditions are conducive to disease development. Add an acceptable wetting agent to the spray tank to increase product efficacy for hard-to-wet foliage. Use a spreader/sticker when excessive and repeated foliar wetting occurs.

Turf Applications

Use **TM 4.5F Select** against certain foliar and soil diseases for use on all turf types such as golf course greens, tees and fairways, athletic fields, cemeteries, parks, and commercial and home lawns. Use **TM 4.5F Select** both preventively and curatively; it is not phytotoxic on turfgrass.

DO NOT use **TM 4.5F Select** on turf being grown for sale or other commercial uses such as sod. For use only by certified applicators and those under their direct supervision. **DO NOT** apply with fixed wing or rotary aircraft. Use **TM 4.5F Select** on all cool- and warm-season grasses (such as but not limited to bentgrasses, bermudagrasses, bluegrasses, fescues, ryegrasses, St. Augustine grasses and Zoysia grasses) or their mixtures.

Mixing Instructions

Add the required amount of **TM 4.5F Select** to a partially filled tank, agitated by mechanical or hydraulic means. Add the remaining required amount of water. Maintain continuous agitation to keep the material in suspension. For best results, use spray mixture the same day it is prepared.
