

FUNGICIDE

PPZ 41.8 SELECT™

**EFFECTIVE, LONG-TERM RESIDUAL
FUNGICIDE PROTECTION.**

PPZ 41.8 Select™ is a broad-spectrum fungicide recommended for the control of many important plant diseases with both preventive and curative action in turfgrass and ornamental use. The high active ingredient percentage in PPZ 41.8 Select provides an economical way to protect and enhance the return on investment. PPZ 41.8 Select has also been shown to improve cool-season grass and sod establishment.

PRODUCT FEATURES

- Excellent residual control.
- Low use rates.
- Low-odor formulation.
- High tank-mix compatibility.
- Labeled for turf and ornamental applications.

LABELED USES

- Golf courses
- Commercial lawns
- Residential lawns
- Landscapes
- Nursery

See label for complete application guidelines and restrictions.

ACTIVE INGREDIENTS

41.8% propiconazole

FRAC GROUP

3

FORMULATION

Emulsifiable concentrate

CHEMICAL FAMILY

Triazole

COMPARE TO

Spectator®

MODES OF ACTION

Demethylation inhibitor, Inhibits sterol biosynthesis in the fungal cell

RESTRICTED USE

No

SIGNAL WORD

Warning

PACKAGING

4 x 1 gal, 2 x 2.5 gal

EPA REG NUMBER

89442-3

PPZ 41.8 SELECT™

EFFECTIVE, LONG-TERM RESIDUAL FUNGICIDE PROTECTION.

APPLICATION INFORMATION

Turfgrass disease control

PPZ 41.8 Select™ is a systemic fungicide for use on turfgrasses for the control of over 19 labeled diseases. PPZ 41.8 Select also controls numerous diseases on ornamentals and other landscape and nursery plantings. It controls powdery mildews, rusts, leaf spots, scabs, and blights. Refer to the appropriate sections of the label for application instructions for specific diseases and plants. For broader spectrum control, PPZ 41.8 Select can be mixed with other fungicides and is also compatible with numerous herbicides and insecticides. Observe all directions, precautions, and limitations on labeling of all products used in tank-mixes.

Establishment of cool-season grasses

PPZ 41.8 Select provides control of many diseases of turf, and its primary use is as a fungicide for use against the diseases listed on this label. As an additional benefit, PPZ 41.8 Select will improve the rate of establishment when it is applied to cool season grass seedlings or sod.

New seedlings

Apply 0.35 fl. oz./1,000 sq. ft. at the 2 to 3-leaf stage of growth for faster root development and top growth.

Sod

Apply 0.35 fl. oz./1,000 sq. ft. 2-6 weeks before cutting for increased sod knitting and faster establishment after laying.

LABELED DISEASES

Anthracnose	Gray leaf spot	Pink patch	Rust	Take-all patch
Brown patch	Gray snow mold	Pink snowmold	Spring dead spot	Yellow patch
Dollar spot	Leaf spot	Powdery mildew	Stripe smut	Zoysia patch
Fusarium patch	Necrotic ring spot	Red thread	Summer patch
